Foreword

5

The company was founded in 2002 by two Icelandic entrepreneurs Orri Wilberg and Sigurður Ólafsson. For 14 years the company was known as UAB Quercus Juventatis. With the launching of a brand new website in 2016 the company was renamed to Wilbergs Group UAB, a more modern less tongue-twisting title.

After working with passion and devotion in the hardwood flooring industry for decades, Orri and Sigurður decided to start their own production by founding a hardwood flooring factory in the heart of Europe, Lithuania, producing exclusive wooden floors and parquet for the Scandinavian market. Later on a talented engineer, Gintas Bagužis, joined their team and together they established the production of prefabricated wooden element houses followed by bathroom modules and the latest products; kitchen cabinets. Wilbergs Group is very proud of its qualified engineers, architects, production directors and other employees that all together count over 240 individuals. Together Wilbergs team aims to bring high quality design products and excellent personal service to the customer.

Our factories are located in two different locations, only 20 minutes drive from Kaunas, the second largest city in Lithuania. Customers and guests are welcome to stop by for coffee and have a look at our showrooms or even take a tour around the factory to experience our production first-hand.

Brushed
Color—filled
Distressed
Semi—filled

Living room

Your choice

Choosing wooden floor for your apartment is a long term investment, so choose it with love.

**Zig-zag**

Chevron pattern works for wall art, Icelandic sweaters, wilbergs logo, and wooden floor design.

**Timeless feel**

Chevron's graphic pattern that comes again and again as a popular trend in home decor and architecture.

Bathroom

Warmer feet

Oak is a great hardwood for bathrooms and brings a warm contrast against tiles.

Elegant space

Our floor colors can also be used on other surfaces like closets and cabins.

Wooden hack

If you don't want wood on your bathroom floor, cover the walls instead, why not!

Kitchen

The heart of a home

We are always ready for coffee
and long conversations.

**Wood and gold**

Darker wood fits really well with the cover of this catalog. And it's fine to drop icecream on the floor, it can handle it.

**Wow factor**

What makes a nice kitchen is the furnishing, tables and chairs, and the floor.

Stair

Flashback

Yet from the first step
we count the distance between
the most important meetings of our lives.
By foot.

Eyecatcher

A stair with a wooden floor can become the biggest design object of your home

Walk

Experience the moment of walking up a beautiful stair, instead of taking the elevator.

Made by nature

Organic

every plank is a piece of natural artwork with its individual structure and pattern.

**Exclusive**

This nice bachelor loft has planks distressed by nature, giving it a hip character.

For you

Brushed, color filled, semi filled
or distressed. Choose your effects.
We are in love with distressed.

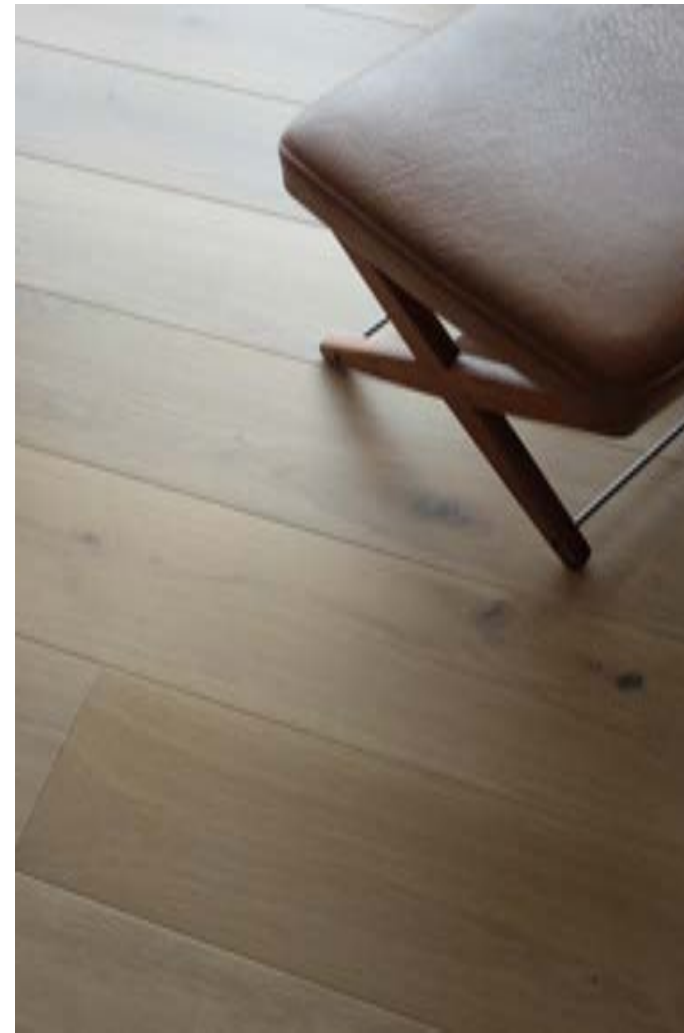

Colorful interior

Get creative

Do more of what makes you
happy, do more colors.

**Temptation**

Some things are difficult to resist
wooden floors and green eyes.

Animals

Dogs love wooden floors, especially heated floors when it's cold outside.

Darker
tones

For happiness

The home is much more than
a shelter, it should lift up your
emotions and spirit.

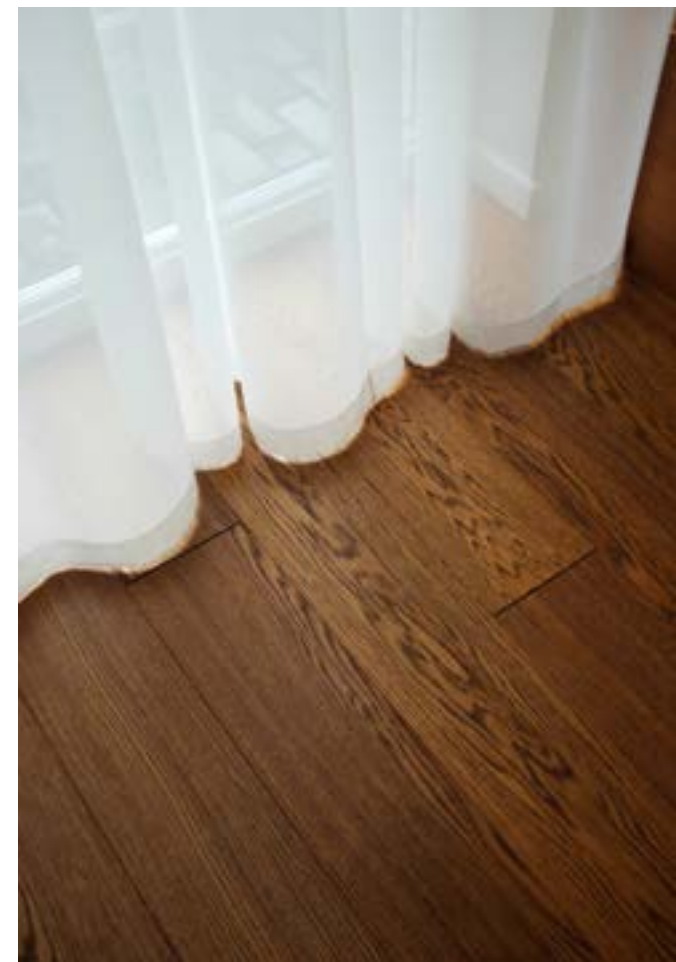

**Classic**

This villa in Kaunas has dark chevron floors filled with life and character.

Visual thinking

Everything is designed, few
things are designed well.

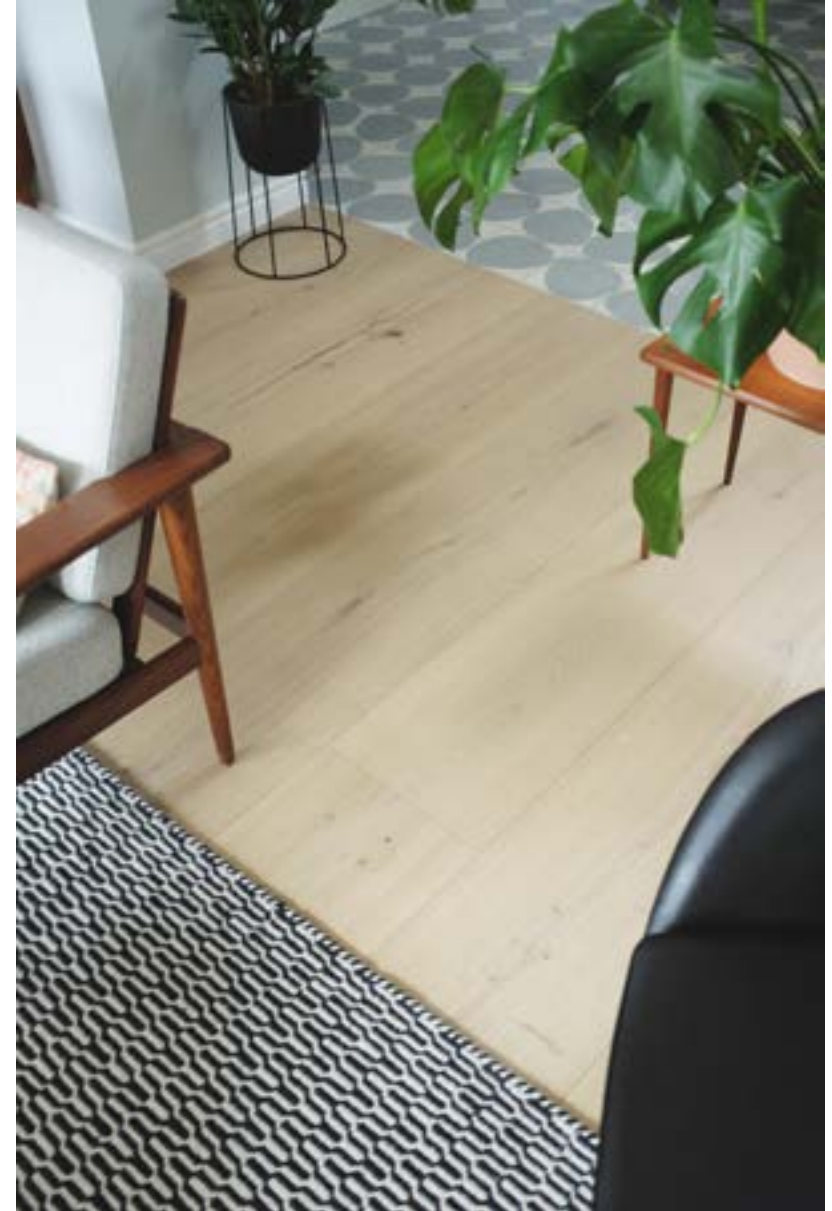

Let the light in

Yoga

This cozy winterhouse has super white planks and fits well with snowy landscape.

**Open up**

Bath your floors with light and shadows, a new floor every day.

**Home**

is where calm and chaos
bunch of people and solitude
find their own space.

Ash

Zebra

The ash is full of stories.

Brightens your life

One of the main attractions of this wood is its light colour.

A pair of white socks is laid out on a dark brown wooden floor. The socks are positioned diagonally, with one sock in the foreground and the other slightly behind it. The wood grain of the floor is clearly visible.

Goodbye

WILBERGS

At the end

Wishing you lots of inspiring meetings, and ordinary meetings as well. Prepare yourself to open the door to your house. You might be wearing pyjamas with a messy hair, perfect! The most important thing is you and the relationship with the people in your home.
